

Coat of Arms / Family Crest

Coat of Arms or Family Crest has long been a symbol of a family's identity and values. Originally used to identify warriors dressed in armor, each knight chose symbols and colors to represent his family or clan. These family crests or coats of arms have been passed down throughout generations.

However, most of us are not directly connected with these ancestors, or the symbols of yesteryear are not representative of who our family is today. Use this coat of arms worksheet as an artistic prompt. Draw, and colour to represent yourself in each of the shield's quadrants. You can make your own personal family crest based on the values and principles important to you now and for years to come.
